This presentation will feature the Director of Special Services for Bloomfield Public Schools presenting a year on review as well as future expectations for the department. The Special Services administration will be available to answer parents questions regarding the current school year and any pressing concerns.

As we are meeting virtually, it will be important to have questions submitted to **Greg Lombardi by 5/24** (greggo1685@gmail.com). We hope to “see” you!

**There’s something for everyone at Bloomfield SEPAC - Parents, students, self-advocates, Educators, Administrators, Child Study Teams, Board of Ed members, and Community members.
All are welcome! Bring a friend!**

Our hope is to bring about positive systemic change by shaping district policies affecting students who benefit from special education services so that ALL students receive a quality education that is fair and equal.
